The Georgia Transportation Alliance focuses on three key issue areas, all with a specific eye towards **transportation progress that encourages innovation:**

Major Surface Transportation Funding to support economic growth and quality of life

Freight Network Investment to expand the capacity to handle goods moving to and through our state

Public Transportation to ensure that all Georgians can reach their destination

# About The Georgia Transportation Alliance

The Georgia Transportation Alliance is the only organization in our state focused solely on long-term transportation solutions connected to economic development and job creation. Working with federal, state, business and community leaders, the Alliance seeks to identify policies and programs that will ensure an efficient and safe multi-modal transportation system that effectively moves both people and freight.

Since its founding in 2011, the Georgia Transportation Alliance has:

Successfully advocated for House Bill 170, which now generates **over \$1 billion** in funding annually for transportation

Led efforts to pass House Bill 930, creating a new regional transit governance structure for metro Atlanta

Worked with the Georgia Congressional Delegation to ensure representation on the U.S. House of Representatives Transportation & Infrastructure Committee

Helped ensure sustained support for federal and state funding to complete the Savannah Harbor Expansion Project

Secured the support of the majority of members of the state's Congressional Delegation for the Fixing America's Surface Transportation Act, securing **\$6.8 billion in funding** through 2020 as well as the Water Resource Development Act, which includes funding for Georgia's ports

## Join Us in Building Georgia's Transportation Future

The Georgia Transportation Alliance's efforts are supported by engaged members representing the various aspects of the state's transportation and logistics industry. Information about membership can be found on the right.

In addition to its members, key partners in the Alliance's efforts include the Georgia Chamber of Commerce, the Georgia Department of Transportation and local chambers of commerce throughout the state.

You can help keep our state and our economy moving by investing in the Georgia Transportation Alliance today.

Membership in the Alliance goes directly to support education and advocacy efforts at the federal, state and county level on behalf of all Georgians. Membership investment allows the Alliance to conduct regular polling and research, identify and support pro-transportation candidates and ballot initiatives, and actively engage in the legislative process in Georgia and Washington, DC.

All memberships include invitations to the Georgia Transportation Alliance's premiere annual events – the State of Transportation Breakfast (January) and the Annual Transportation Summit (November).
